

March 18, 2020

Dear Parent/Guardian:

You are receiving this letter today because our district is supporting online learning while your child's school is closed for deep cleaning due to the COVID-19 virus. Thank you for supporting the learning of your child during this time.

If you have elected to allow your child to use a home computer/device to access online learning opportunities while schools are closed, please be aware of the following:

- 1) Devices used in the district are “filtered” which means students are protected from being able to access topics related to sex, drugs, and violence. While your child will be able to access all of his/her school resources from your home computer, s/he is also able to “surf” the web and have access only limited to what you have set up on your computer. If your child displays poor digital citizenship and saves inappropriate images or text to a Weld R-1 school assignment or Google application, consequences may be appropriate.
- 2) Access of school and district resources requires students to follow Board Policy JS-E, Acceptable Use Policy for Technology. Please review the Technology Handbook and this policy.
- 3) To access classroom resources, visit the district's website www.wcsdre1.org, hover over the “STUDENTS” tab and select the resource your child needs. Clever is the resource students use to access most of their learning software in Weld RE-1.
- 4) Should you need technical support for your child to access Weld RE-1 learning software, please email support@wcsdre1.org. We are unable to troubleshoot home computer hardware or internet connectivity.

Thank you for supporting your child's learning during this time.

Weld RE-1 Technology Services Team
